Course Scoop:

This course is designed to give an individual a working foundation of inform and influence activates between the battalion and division level of operations and teach soldiers to integrate and operate in an informational environment. Each student will gain a working knowledge of inform and influence activates (IIA), IIA supporting IRC's , IIA integration into the military decision making and targeting processes, analyze the informational environment, IIA execution, and assess the results. The training demonstrates how these focus areas and disciplines are synchronized to achieve IIA objectives. Their knowledge will be exercised and validated during a culmination scenario based exercise, where they will apply their knowledge of information operations at the battalion, brigade and division level of operations.

Commanders/Commandants have the authority to deny enrollment or dis-enroll Soldiers that are grossly obese, or otherwise physically unable to meet course requirements.

Commanders/Commandants will conduct a risk assessment and counsel the reporting Soldier on

the outcome should the analysis result in denial of enrollment or dis-enrollment of a course. Individual Soldier safety and the safety of the other Soldiers participating in the training must always be considered. When denial of enrollment or dis-enrollment of a course occurs, the first General Officer in the Soldier's chain of command will be notified and provided the circumstances that resulted in the decision.
